### **WARNING: Read Before Operating Machine**

Always wear protective eyewear

Keep clear of rotating nozzles

Never lock trigger gun open with any device

Drain water in cold weather to avoid freezing

Tampering with any part of this machine will void all warranties

## Operating Instructions

1. Connect to Pressure Washer.
2. Turn water on and open valve. Open trigger gun for flow of water through nozzles. Nozzles must have flowing spray. If not, remove tips and clean; reassemble, making sure that groove of nozzle is parallel to spray bar. Use thread sealant when installing nozzles.
3. Start Pressure Washer. The Hammerhead is ready for operation.
4. Walk slowly behind the Hammerhead cleaning as you go. If striping occurs, slow down your pace.
5. Periodically check weep hole on bottom of swivel. Water will seep slowly; if water shoots out, stop and replace seals. Swivel assembly can be rebuilt.
6. For maximum effectiveness keep spray tips clean. If the machine vibrates, stop and clean spray tips.
7. DFSCP18GZ ONLY: Use No. 2 general purpose waterproof lithium grease. Grease swivel as needed depending on usage. Contact your dealer with questions about greasing.

**DO NOT ALLOW MACHINE TO REMAIN STATIONARY ON SOFT SURFACES SUCH AS WOOD.**

**Caution:** Striking any raised obstacle during operation will damage machine. If contact does occur and results in vibration when operating machine, STOP and replace spray bar. Continued operation could result in serious injury or damage to machine.
